

AKAASH SHARMA

Associate Consultant — Oracle | Full-Stack & Backend Engineer

Mumbai, India | +91 7045693558 | aakaash22k3@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Software Engineer with 1+ year of professional experience in full-stack development, backend API engineering, and AI-assisted workflow automation. Proficient in Java, Python, JavaScript, Kotlin, SQL, React.js, Node.js, and Spring Boot. Strong foundation in Data Structures & Algorithms, OOP, DBMS, and Agile methodologies. Proven ability to deliver RBI-compliant banking features, reduce development cycle times through AI automation, and build scalable cross-platform applications.

WORK EXPERIENCE

Associate Consultant — Oracle

Jul 2025 – May 2026 | Mumbai (Hybrid)

Technologies: Java, MySQL, Hibernate, Python, Tortoise SVN, Jira, Postman, Cline (AI)

- Enhanced Oracle Flexcube core banking modules for HDFC Bank, delivering 10+ regulatory and business-critical features aligned with RBI compliance requirements.
- Developed and documented Java/SQL backend APIs for key modules including account creation, nominee management, passbook maintenance, CBR codes, and limit inquiry, enabling end-to-end processing for 5+ banking workflows.
- Implemented comprehensive API validations for Nominee and CBR modules, ensuring 100% alignment with bank application screens and reducing post-deployment defects.
- Engineered an AI-assisted prompt engineering solution leveraging full codebase context, reducing feature development time from 3 days to 3 hours — a ~85% improvement in delivery speed.
- Participated in Agile sprints with daily scrums; conducted API unit testing via Postman prior to IUT deployment, maintaining high release quality.

Software Developer Intern — GNZY

Jan 2025 – Jul 2025 | Mumbai (Hybrid)

Technologies: Kotlin, Coroutines, Node.js, React Native, MongoDB, Android Studio, GitHub

- Engineered 8+ scalable UI components using Kotlin and Coroutines with pagination and lazy loading, improving app performance and reducing load time by ~40%.
- Developed end-to-end e-commerce features — cart, wishlist, coupons, and brand page — seamlessly integrated with a Node.js/MongoDB backend.
- Built a cross-platform mobile application using React Native, ensuring consistent UX across Android and iOS, reaching 1,000+ users at launch.
- Designed search, filtering, and tutorial UX flows that increased user engagement and retention metrics by 25%.
- Secured partnerships with 5 brands by demonstrating product traction through the brand page design and data-backed engagement metrics.

PROJECTS

Resume–Job Matching System | Python, Streamlit, Node.js, NLP [\[GitHub\]](#)

- Developed an AI-powered resume-job matching system using sentence embeddings for semantic similarity scoring, going beyond keyword matching to deliver context-aware results.
- Built and integrated a Node.js RESTful API for seamless frontend–backend communication; designed an end-to-end Streamlit UI for real-time resume parsing and match score generation.
- Implemented PDF parsing and NLP-based skill extraction to identify key competencies and surface missing skills, reducing manual resume review effort.

VibraSense | C, WebSockets, ESP32, Arduino IDE [\[GitHub\]](#)

- Developed a WiFi-enabled assistive glove using ESP32 for real-time Braille communication, achieving 1st rank in the Electronics department among 50+ projects.

- Integrated embedded systems and C firmware for tactile feedback and efficient signal processing; built a web interface leveraging WebSockets for real-time, character-by-character data streaming from frontend to ESP32.

YelpCamp | *React.js, Node.js, Express.js, MongoDB*

- Developed a full-stack campground platform with user-generated content, community reviews, and a responsive React.js frontend, serving 500+ test users with seamless interactivity.
- Designed RESTful APIs using Node.js, Express, and MongoDB; implemented secure authentication and authorization with Passport.js for robust CRUD operations.

TECHNICAL SKILLS

AI & Automation Tools: Claude (Cline), ChatGPT, GitHub Copilot, Codex CLI, Gemini, Oracle Chat Assist
Programming Languages: Java, Python, JavaScript, Kotlin, C, C++, SQL
Frameworks & Libraries: Spring Boot, Node.js, Express.js, React.js, React Native, Hibernate, Streamlit, Pandas
Databases: MySQL, MongoDB
Tools & Platforms: Git, GitHub, Visual Studio Code, Postman, Jira, Kubernetes, Tortoise SVN, Android Studio, Jira
Core Competencies: Data Structures & Algorithms, OOP, DBMS, REST API Design, Agile/Scrum, Prompt Engineering

CERTIFICATIONS & TRAINING

- AWS Certified Cloud Practitioner — Amazon Web Services / Coursera (Apr 2026 – May 2026)
- Full-Stack Web Development Bootcamp — Udemy (May 2023 – Jun 2023)
- IBM Data Analytics Virtual Internship — IBM

EDUCATION

B.Tech, Electronics & Telecommunication Engineering	Oct 2021 – Jun 2025
Sardar Patel Institute of Technology, Mumbai CGPA: 8.46 Minor in Computer Science Engineering	
Higher Secondary Education (HSC)	Mar 2020 – May 2021
Pace Junior Science College, Mumbai Score: 89.6%	
Secondary Education (ICSE)	Mar 2018 – May 2019
Gokuldham High School And Junior College, Mumbai Score: 97.5%
